

The Domestic Violence Resource Network (DVRN) informs and strengthens domestic violence intervention and prevention efforts at the individual, community, and societal levels. DVRN member organizations are funded by the Family Violence Prevention and Services Act (FVPSA) Program, located in the Family & Youth Services Bureau (FYSB), Administration for Children and Families (ACF) of the U.S. Department of Health and Human Services. They work collaboratively to promote practices and strategies to improve our nation's response to domestic violence and make safety and justice for all families a priority. **Contact each center directly for technical assistance and training opportunities.**

The DVRN consists of two national resource centers, four special issue resource centers, three culturally-specific resource centers, five emerging issue resource centers, and the National Domestic Violence Hotline. DVRN partner organizations routinely host webinars and in-person trainings, provide written materials such as fact sheets, guides, and research briefs, respond to questions from professionals working directly with victims, offer customized technical assistance, and often partner with state domestic violence coalitions and local programs on research projects and to promote cutting-edge best practices. All training, technical assistance and resources provided by the DVRN is available to FVPSA grantees and others seeking to address domestic violence in their communities.
